Improper diet, overwork, undue wor-ries, colds, the flu or other illness often impairs the stomach's diges-tive functions and reduces the redblood strength.

A person who is operating on only a 70 to 75% healthy blood volume or a stomach digestive capacity of only 50 to 60% normal is severely handicapped. At such times Nature needs extra help to restore its balance and function properly. Undigested food places a tax on the system...insufficient blood strength is a detriment to good health.

If you are subject to poor digestion or suspect deficient red-blood as the cause of your trouble, yet have no organic complication or focal infection. SSS Tonic is especially designed (1) to promote the flow of VITAL DIGESTIVE JUICES in the stomach and (2) to build-up BLOOD STRENGTH when deficient. These two important results enable you to enjoy the food you do eat ... to make use of it as Nature intended. Thus you may get new vitality... pep. you may get new vitality . . . pep . . become animated . . . more attractive! **Build Sturdy Health**
